AUTOMATIC PACKAGING LINE

SMARTFOLD + SMARTBAG + PBE

## WOMAN STOCKINGS PACKAGING SMARTFOLD + SMARTBAG + PBE

Automatic packaging line comprising of an automatic folding module SmartFold connected to a bagging unit SmartBag and to the PBE module. This system can be connected to the boarding machine or manually loaded from a dedicated conveyer. A servo-motor on each conveyer of the folding module allows a fine tuning of folding length for each individual style to store into machine memory. SmartBag has the possibility to adjust electronically the bag width to process different sizes.
