

SOCKS BOARDING

BOARDING MACHINE FOR SPORT SOCKS

20P2

SOCKS BOARDING 20P2

Direct loading of products on boarding forms by 2 operators allows the processing of a very wide range of casual products and a very high productivity. The machine has a stripping device operating with belts and a programmable stacking system that allows the simultaneous stripping of 2 socks. 20 boarding forms with a quick release system to allow a very easy forms replacement. The machine cycle provides the movement of 2 forms at the time with a longer processing time and a considerable quality improvement of products. Electric presses can be partially activated, according to the socks length, to consistently reduce the power consumption.

SOCKS BOARDING

20P2

Specifications	Values
Dimensions	2.198 X 3.849 x 2.446 (h)
Air pressure	6 bar
Air consumption	7,5 m3/hr
Absorbed power	3 kW
Min. cycle time	3 sec./1 pair
Max. productivity	1.200 pair/hr 100 Dz/hr

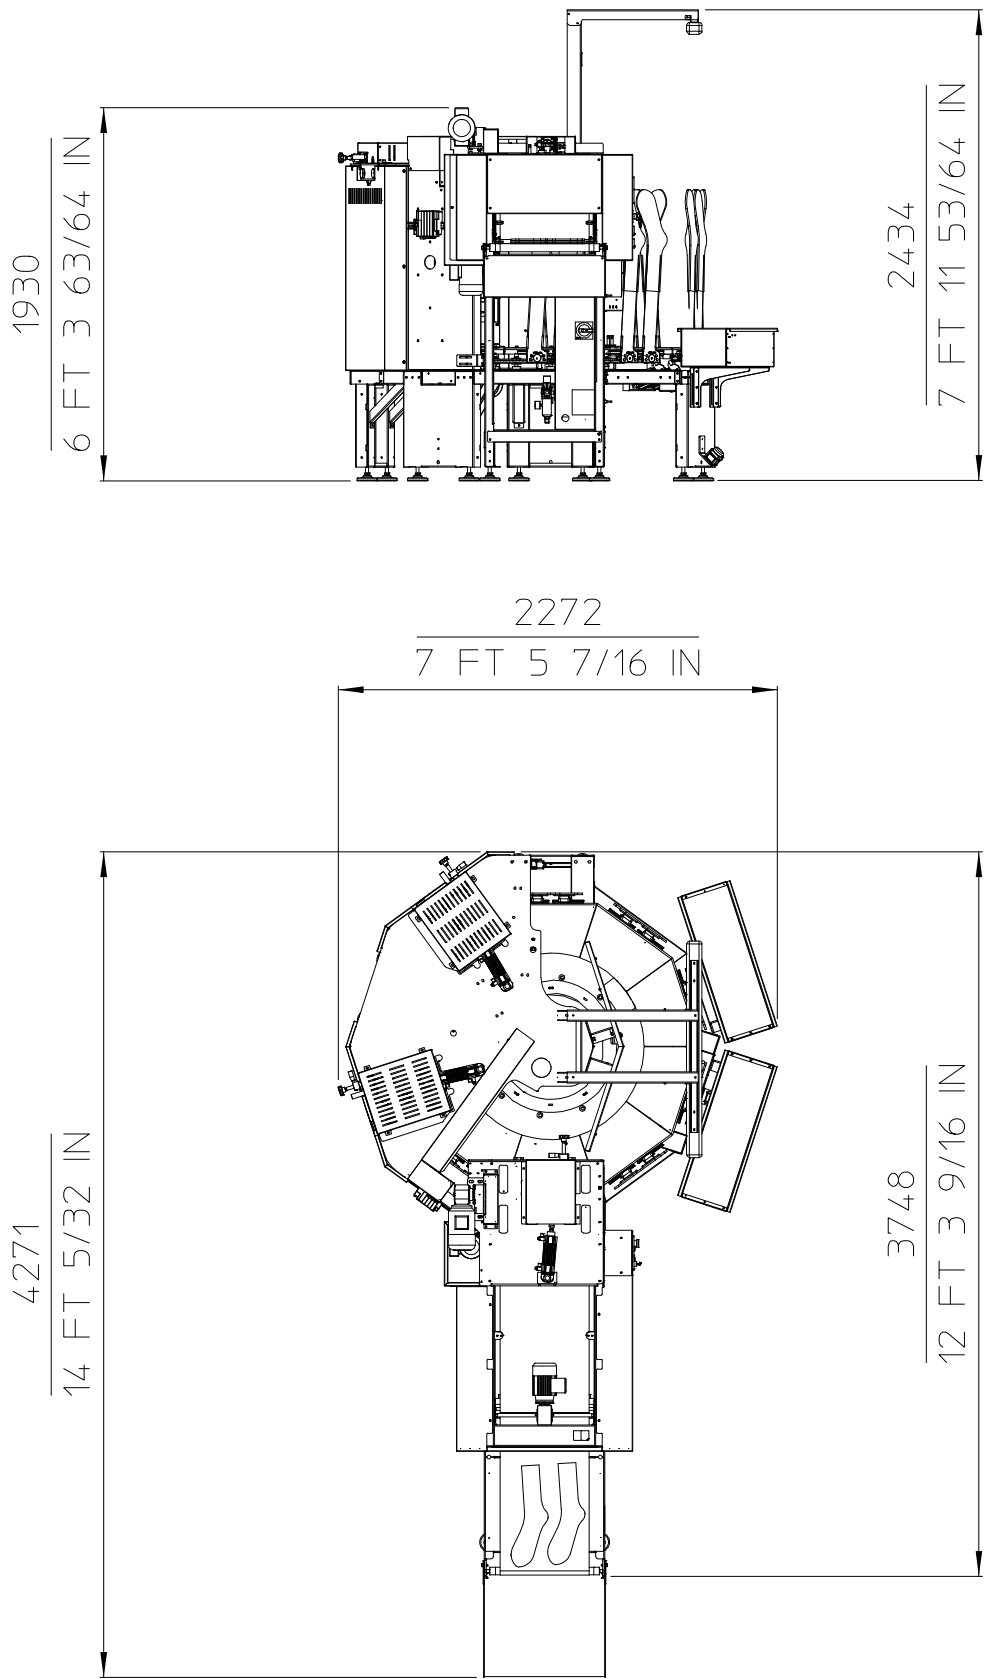

Technical specifications
Touch-screen display for the machine setting with the possibility to store working recipes.
Electronic self-diagnosis with errors or malfunctions visual messages.
Pneumatic device for a quick forms replacement.
Qty. 2 electric presses with partial activation option and temperature electronic control to a maximum of 250°C .
Surface of presses, in contact with socks, is covered with high temperature resistant clothes.
Belts stripping device with programmable stacking system..

20° foot shape forms
